

# DS-1280ZJ-DM46

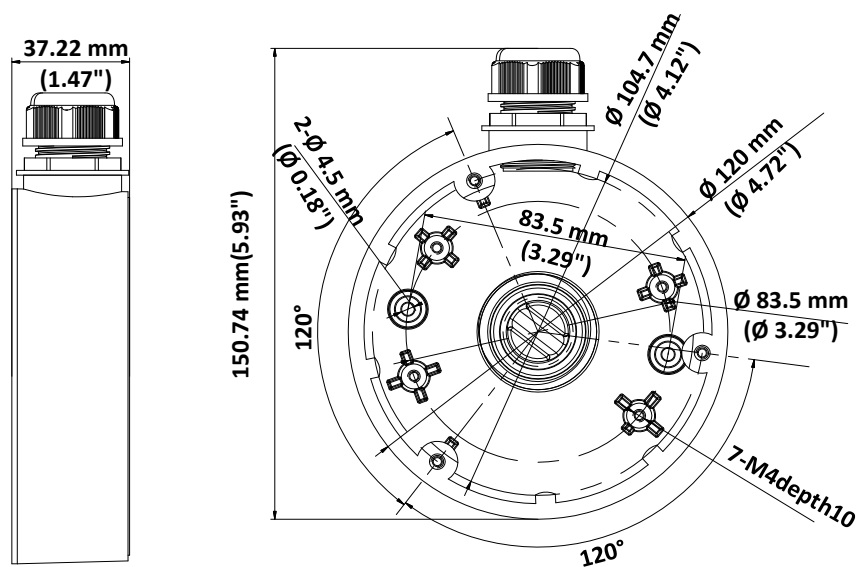

## Junction Box

### Feature

- Aluminum alloy material with surface spray treatment
- Supports bottom outlet, and side outlet
- Applies to both indoor conditions, and outdoor conditions

### Dimension

|            |                                                                                            |
|------------|--------------------------------------------------------------------------------------------|
| Model      | DS-1280ZJ-DM46                                                                             |
| Parameters | Junction Box                                                                               |
| Color      | White                                                                                      |
| Material   | Aluminum Alloy                                                                             |
| Dimension  | $\varnothing 120 \text{ mm} \times 37.2 \text{ mm}$ ( $\varnothing 4.72'' \times 1.46''$ ) |
| Weight     | 250 g (0.55 lb.)                                                                           |

### Note

- The junction box should be installed on the flat surface.
- Waterproof rubber is necessary for the outdoor application.
- The wall must be capable of supporting at least 3 times as much as the total weight of the camera and the junction box.
- The junction box's maximum load capacity is 4.5 kg (9.92 lb.).
